

An Invitation to Choose a TLPA Membership That Meets Your Needs

TLPA is providing fleet operators, brokers and transportation network companies (TNCs) based outside the U.S. with a membership experience tailored to your organization's specific needs. We're offering you a choice: Three different levels of membership service available at different rates.

Nonprofit trade associations may accept this invitation as well by selecting either Active level (see below). Associations may also opt for a different type of membership created just for them (requires a separate application available at www.tlpa.org/Trade-Association).

Dues are based on the number of passenger vehicles (taxicab, limousine, livery, paratransit, TNC, airport and/or corporate shuttles, nonemergency medical, etc.) operating in an organization's system.

• TLPA dues cover all vehicles connected with the TLPA member operator's organization(s). That means that all passenger vehicles receiving any service whatsoever from the member operator or from the operator's organizations (company, cooperative, association, dispatch service) that operate within 75 miles of your organization's location are covered. This includes independents, affiliates and/or associates who own their own vehicles and/or their own permits and simply purchase dispatch or insurance or some other service from the TLPA member operator's organization(s).

• Since many fleets either trade under several different names and/or different corporate structures, it is required that all of these diverse entities that are affiliated with the operator, or the operator's management team, and which are located within 75 miles of the TLPA member organization(s), are covered by TLPA dues. The organization can have each affiliated transportation service join TLPA independently or all services operating within a 75-mile radius can be amalgamated into one large member, but all of them must join for any one of them to join.
